HOW IT WORKS

«bqn» is a small bit of technology that allows you to add delivery service to your small or medium size business and compete with overnight delivery providers and big box retailers.

Keep More of What's Yours

«bqn» is invisible to your customer and we charge a clear and transparent time-based rate, so you only pay based upon where you deliver, not what you deliver. We don't take a percentage of your overall sale, rather an amount proportional to the miles driven for delivery, so you keep more money in your pocket.

Control

Tap into «bqn»'s vetted driver-pool to deliver products to your local customers. You control everything from the delivery price (\$10 min.) to where your products go, to who makes the delivery, and how fast your customer gets it.
